DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
2. Following title is suggested: A CONDENSER MICROPHONE.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It unclear as to the location of the at least on recess for the wirings connecting the electrodes and circuits on the substrate with respect to the microphone. The specification only discloses the recess 20 at four corners of the microphone (page 4), not on a side of the microphone as claimed.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claim 1 as best understood is rejected under 102 (a) as being anticipated by Applicants Admitted Prior Art (AAPA).

As applied to claim 1, The AAPA (Prior Art Fig. 5) teaches a condenser microphone comprising: a substrate (2, Fig. 5); a back plate (5) having a stationary back electrode and secured to the substrate (specification page 1, lines 15-16); a spacer (6) mounted on the back plate; a diaphragm electrode (7) on the spacer; and a frame (8) having a sound collecting hole (1b) and mounted on the diaphragm electrode.

Allowable Subject Matter

6. Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
